- Hulls with easy connect for easy assembly
- Low bridle connection for better sailing performance
- Hull construction using *sustainable* materials
- Green certificate Vinyl Ester Resin (VER) from Renewable Resources
- Vapourless Vacuum Infusion process
- Composite foam (PET) from Renewable Resources

Mainsail

- Made by Olympic Class Supplier Performance Sails
- Boomless sail plan
- Semi deck sweeper for improved performance
- Large window
- Radial panel layout for optimal load distribution
- Fully battened
- Performance Sails batten tensioners with tension indicator
- Polyester scrim laminated cloth with black yarns special edition Nightwave special version
- Epoxy tapered battens

Jib

- Made by Performance Sails
- Large window
- Radial panel layout for suberb load distribution
- Fully battened
- Polyester scrim laminated cloth with black yarns Nightwave special version
- Epoxy tapered battens
- Hardware
 - Easy hoist system

Jib furling (optional)

- Made by Performance Sails
- Colours (optional)
- Radial panel layout for optimal load distribution
- High tempered woven cloth
- UV leach and foot protection
- Hardware
 - Harken furling system

Spinnaker for snuffer system (Optional)

- Made by Performance Sails
- Radial panel layout for optimal load distribution
- Nylon cloth
- Colours (optional)
- Snuffer patches in spinnaker
- Hardware
 - Divisible bowsprit for easy transport
 - Composite snuffer
 - Snuffer bag
 - High quality ropes
 - Harken running blocks and cleats
 - One line hoist system

Spinnaker for furling system (Optional)

- Made by Performance Sails
- Radial panel layout for optimal load distribution
- Nylon cloth
- Colours (optional)
- Hardware
 - Divisible bowsprit for easy transport
 - Harken continuous line drive furler system
 - Harken running blocks an cleats
 - High quality ropes

Trampoline

- Made by Performance Sails
- Black UV resistance mesh
- Integrated storage bag
- Easy connect for simple assembly

Other hardware

- Fully equipped with harken running blocks and cleats
- Front and rear cross bars with easy connect
- Low stretch stainless standing rigging with special teardrop terminals
- High quality ropes
- Nacra kick up rudder system
 - Carbon reinforced high aspect rudders blades
